# Testimonial

*"I can honestly say we could not be happier with St Kilian's. Over the past 18 months the school as organised trips to: New York, Berlin, Spain, Belgium and Paris. My sons have improved so much in sports and joined more extracurricular clubs and societies than I can mention. All the while, the academic side of their education was not forgotten. They excelled in languages, sat the Sprachdiplom and the French DELF, competed in debating competitions and essay writing competitions"*

*"Kilian's is such a special place; I couldn't be more positive about the school"*

Parent

# Testimonial

*"None of my primary school classmates came with me to St. Kilian's, I started my secondary school journey alone. Although this was the case, I have never at any point felt like an outsider here, nor did I ever feel excluded or unwanted. I can confidently say I have made friends for life in this school. St. Kilian's has given me more opportunities than I could have ever asked for. I have been given the opportunity to sit my Sprachdiplom C1 German exam thanks to the completion of my sprachdiplom B1 exam. The teachers in Kilian's are patient and always willing to help, it is thanks to them that I have developed a passion for the subjects that I am studying in my leaving cert year. On top of all of this, in my opinion, going to such a culturally diverse school is an education in itself. As a result of the points mentioned above, when people ask what school I'm in, I proudly tell them that I'm in "The German School".*
